Sounds great.

My meeting is a standing monthly meeting, Interagency Residue Control Group meeting with FSIS, that is not likely to take place this month. If the other meeting does take place, I will have a proxy sit in for HED.

I look forward to meeting with you on Wednesday. Rooms should not be too difficult, thank you for trying though David.

Best,
David

Subject: RE: Meeting on Wednesday?

I've booked a 10 am to 11 am slot for this. Not able to book a room, so we may have to play it by ear (as of a few weeks back, EPA has moved folks from OSWER, OGC, and other EPA offices onto our building to save rent, so we are all compressed and competing for the same conference rooms so they are less available.)

David H. has his calender marked off for this time (10 to noon), but I don't know what it is – I will leave it to him to get back to you about whether he can make it or not and if alternate arrangements need to be made.

David.

Thanks. We'll plan on it.

David & David:

How soon might you be able to confirm whether our meeting on Wednesday can take place?
